

CURRICULUM VITÆ

May 2008

MICHAEL W. VON GRÜNAU

Born October 3, 1944, Bayrischzell, W. Germany
Canadian citizen

Undergraduate Education:

1964-1967	U. of Munich	Physics
1967-1968	U. of Toronto	Physics (B.Sc.)
1968-1969	U. of Toronto	Psychology

Graduate Education :

1969-1971	U. of Toronto	Psychology (M.A.)
1971-1975	U. of Toronto	Psychology (Ph.D.)

Professional Experience:

1969-1974	Toronto	Teaching Assistant in Introductory Psychology, Perception and Information Processing
1973-1974	Toronto	Research Assistant for Prof. Kolers at U. of Toronto
1975-1976	Munich	Lecturer in Introductory Psychology at U. of Maryland
1975-1978	Munich	Researcher at Max-Planck-Institute for Psychiatry, Dept. of Neurophysiol.
1976	Munich	Assistant at U. of Munich, Dept. of Physiology
1978-1980	Kingston	Post-doctoral Fellow at Queen's University, Dept. of Psychology
1980-1984	Kingston	NSERC University Res. Fellow & Assistant Professor, Queen's University, Dept. of Psychology
Fall 1982	Tübingen	Visiting Research Fellow, MPI f. Biol. Cybernetics, Tübingen, W. Germany
1984 - June 30, 1985	Kingston	NSERC University Res. Fellow & Associate Professor, Queen's University, Dept. of Psychology

July 1, 1985 - June 30, 1986	Montréal	Researcher at Institut Philippe Pinel, Montréal
July 1, 1985 - present	Montréal	Adjunct Professor, Université de Montréal, Dept. of Psychology
Dec. 15, 1986 - Mar. 31, 1989	Ottawa	Research Associate, National Research Council of Canada, Physics Div., Photometry & Radiometry section, Vision group
July 1, 1989 - June 30, 1997	Montréal	Associate Professor, Concordia University, Dept. of Psychology
July 1, 1997 - present	Montréal	Full Professor, Concordia University, Dept. of Psychology
June 1, 2000 – May 31, 2009	Montréal	Principal of Science College, Concordia University

Awards, Scholarships, Grants (partial list):

1967-1968	Gertrude Davis Exchange Scholarship
1970-1974	National Research Council of Canada Scholarship
Spring 1974	Travel Award for Young Investigators from the Association for Research in Vision and Ophthalmol.
Fall 1974	Health Sciences Research Grant
1977-1978	Deutsche Forschungsgemeinschaft Research Grant
1980-1985	NSERC University Research Fellowship
1980	ARC Equipment Grant (stereotaxic instrument)
1981	ARC Equipment Grant (microdrive)
1981	NSERC Equipment Grant (as member of Grinnell Group)
1982-1985	NSERC Operating Grant (in addition to Fellowship)
1982	NSERC Equipment Grant (search coil eye movement system)
1982	ARC Equipment Grant (X-Y recorder)
1983	ARC Equipment Grant (computer hardware)
1984	NSERC Equipment Grant (equipment for microiontophoresis)
1985-2003	NSERC Operating Grants
1997-2003	FCAR Team Grant
1999	NSERC Equipment Grant (EYELINK eye-tracker)
2002-2005	FQRSC Team Grant (Segalowitz)
2003-2008	NSERC Discovery Grant
2007	NSERC RTI (EyeLinkII upgrade)
2008-2013	NSERC Discovery Grant

List of publications in professional journals

- (1) von Grünau M.W. (1975). The "Fluttering Heart" and spatio-temporal characteristics of color processing : I. Reversibility and the influence of luminance. *Vision Research*, **15**, 431-436.
- (2) von Grünau M.W. (1975). The "Fluttering Heart" and spatio-temporal characteristics of color processing : II. Lateral interactions across the chromatic border. *Vision Research*, **15**, 437-440.
- (3) Kokers P.A. and von Grünau M.W. (1975). Visual construction of color is digital. *Science*, **187**, 757-759.
- (4) von Grünau M.W. (1976). The "Fluttering Heart" and spatio-temporal characteristics of color processing : III. Interactions between the systems of the rods and the long-wavelength cones. *Vision Research*, **16**, 397-401.
- (5) Kokers P.A. and von Grünau M.W. (1976). Color and shape in apparent motion. *Vision Research*, **16**, 329-335.
- (6) Kokers P.A. and von Grünau M.W. (1977). Fixation and attention in apparent motion. *Quart. J. Exp. Psychol.*, **29**, 389-395.
- (7) von Grünau M.W. (1977). Lateral interactions and rod intrusion in color flicker. *Vision Research*, **17**, 911-915.
- (8) von Grünau M.W. (1978). Interaction between sustained and transient channels: Form inhibits motion in the human visual system. *Vision Research*, **18**, 197-201.
- (9) von Grünau M.W. (1978). Dissociation and interaction of form and motion information in the human visual system. *Vision Research*, **18**, 1485-1489.
- (10) von Grünau M.W. (1978). Luminance dependence of strabismic amblyopia in kittens. *J. Physiol., Lond.*, **284**, 119 P.
- (11) von Grünau M.W. and Singer W. (1979). The role of binocular neurons in the cat striate cortex in combining information from the two eyes. *Exp. Brain Res.*, **34**, 133-142.
- (12) von Grünau M.W. (1979). The involvement of illusory contours in stroboscopic motion. *Percept. & Psychophys.*, **25**, 205-208.
- (13) von Grünau M.W. (1979). Binocular summation and the binocularity of the visual cortex in the cat. *Vision Research*, **19**, 813-816.

- (14) von Grünau M.W. (1979). Form information is necessary for the perception of motion. *Vision Research*, **19**, 839-841.
- (15) Singer W., Rauschecker J.P. and von Grünau M.W. (1979). Squint affects striate cortex cells encoding horizontal image movements. *Brain Research*, **170**, 182-186.
- (16) Singer W., von Grünau M.W. and Rauschecker J.P. (1979). Requirements for the disruption of binocularity in the visual cortex of strabismic kittens. *Brain Research*, **171**, 536-540.
- (17) von Grünau M.W. (1979). The role of maturation and visual experience in the development of eye alignment in cats. *Exp. Brain Res.*, **37**, 41-49.
- (18) Singer W., von Grünau M.W. and Rauschecker J.P. (1980). Functional amblyopia in kittens with unilateral exotropia : I. Electrophysiological assessment. *Exp. Brain Res.*, **40**, 299-309.
- (19) von Grünau M.W. and Singer W. (1980). Functional amblyopia in kittens with unilateral exotropia : II. Correspondence between behavioral and electrophysiological assessment. *Exp. Brain Res.*, **40**, 305-310.
- (20) Rauschecker J.P., Singer W. and von Grünau M.W. (1980). Effects of monocular stroboscopic experience on the kitten's visual cortex. Szentagothai J., Hamori J. and Palkovits M. (eds.). *Advances in Physiol. Sciences*, Vol. 2. Regulatory Functions of the CNS Subsystems, 31-39.
- (21) von Grünau M.W. (1981). The origin of pattern information of an apparently moving object during stroboscopic motion. *Percept. & Psychophys.*, **30**, 357-361.

Teaching at Concordia:

- 1988-1989: Introductory Psychology PSY 200/3 ZB
- 1989-1990: Introductory Psychology PSY 200/3 BB
Research Methods I PSY 310/4 V
- 1990-1991: Introductory Psychology PSY 200/3 BB
Sensation and Perception I PSY 349/2 A
Sensation and Perception II PSY 350/4 A
- 1991-1992: Introductory Psychology PSY 200/3 BB
Sensation and Perception I PSY 349/2 A
Sensation and Perception II PSY 350/4 A
- 1992-1993: Sensation and Perception I PSY 349/2 02
Vision SCOL 398
Sensation and Perception II PSY 350/4 02
Research Methods I PSY 310/4 YY
- 1993-1994: Sensation and Perception I PSY 349/2 02
6-months sabbatical
- 1994-1995: Sensation and Perception I PSY 349/2 51
Psychobiology of Sensation and Perception PSY 365/4 01
3 credit remission for GPD
- 1995-1996: Sensation and Perception I PSY 349/2 02
Psychobiology of Sensation and Perception PSY 365/4 01
Special Topics Seminar (PSY 603/803) (no credit) with R. Gurnsey
3 credit remission for GPD
- 1996-1997: Sensation and Perception I PSY 349/2 02
Psychobiology of Sensation and Perception PSY 365/4 01
3 credit remission for GPD
- 1997-1998: Vision SCOL 398

- 6-months sabbatical
- 1998-1999: Sensation and Perception I PSYC 349/4 51
 Sensation and Perception II PSYC 350/4
 3 credit remission for Comprehensive Exams Coordinator
- 1999-2000: Special Topic Seminar PSYC 603/803/2 I
 From Neurons to Consciousness SCOL 298C/4
- 2000-2001: Advanced Experimental Psychology PSYC 400/3 51
 From Neurons to Consciousness SCOL 298C/4
 6 credit remission for Principal, Science College
- 2001-2002: Advanced Experimental Psychology PSYC 400/3 51
 6 credit remission for Principal, Science College
- 2002-2003: Advanced Experimental Psychology PSYC 400/3 51
 6 credit remission for Principal, Science College
- 2003-2004: Advanced Experimental Psychology PSYC 400/3 51
 6 credit remission for Principal, Science College
- 2004-2005: PhD Seminar II PSYC 802
 3 credit remission for Principal, Science College
 6 month sabbatical
- 2005-2006: Vision SCOL 350
 PhD Seminar II PSYC 802
 Psychobiology of Sensation & Perception PSYC 365
 6 credit remission for Principal, Science College
- 2006-2007: Sensation & Perception I PSYC 349
 Sensation & Perception II PSYC 350
 6 credit remission for Principal, Science College
- 2007-2008: Sensation & Perception I PSYC 349
 Psychobiology of Sensation & Perception PSYC 365
 6 credit remission for Principal, Science College
- 2008-2009: Sensation & Perception I PSYC 349
 PhD Research Seminar I PSYC 801 + Comprehensives Coordinator
 6 credit remission for Principal, Science College

Student supervision at Concordia:

a) Graduate Student supervision:

M.A. :

1991 - 1993 : Michelle Kwas

*The importance of the type and amount of depth in the disambiguation of motion signals.
Active allocation of attention and the motion induction effect.*

Comparison of dynamic and static MAE for 1st and 2nd order stimuli at different eccentricities.

1998 - 1999 : Wafa Sakr (with F. Haghigiat)
M.Sc.

*Development of an artificial nose
A motion trajectory illusion and its relation to induced motion and smooth pursuit eye movements.*

1999 - 2001 : Caroline van de Velde

Monitoring eye movements to uncover the role of visual context in the access to verb-complement information during sentence comprehension.

2001 – 2003 : Afroditi Panagopoulos
2005 – 2007: Angela Vavassis

Visual search in rich environments.

Perceptual learning specificity to the trained context of stimulus display durations in difficult visual discriminations.

2007 – in progress: Rong Zhou

Eye movement patterns in simulated and actual Macular Degeneration.

Ph.D.:

1994 - 1996 : André Masson (with R. Gurnsey) *The effect of aging and visual impairments on spatio-temporal sensitivity.*

Long-lasting motion aftereffects: Implications for underlying mechanisms.

The effect of visual active selection on the modulation of the motion aftereffect for first- and second-order motion components.

b) Honor's, Advanced Exptl. theses, Science College projects:

1990/91: Belinda Ng

Mary Laliotis

Are faces special? The effects of facial configuration in a visual search task

The effects of facial expressions on perceived judgements of physical attractiveness.

1991/92: Rudy Morselli

Christina Anston

The role of facial feature size and expression in perceived facial attractiveness

The efficiency of the human perceptual system in detecting direction of gaze: The stare-in-the-crowd effect.

The effects of figural symmetry on similarity in visual search tasks.

1992/93: Rick Mucciacciaro

Zeina Saikali (Science College)

Accuracy of step execution onto a riser when seen from a distance depends on height.

Processing speed in the motion induction effect.

1993/94: Lyne Racette

Interaction between attentional and luminance factors in the motion induction effect

1994/95: Hana Leiba

David Gold

The attentional size illusion

The counter-phase stimulus: A new procedure for evaluating the motion aftereffect to uni- and bi-vectorial motion

Deborah Harrison (Science College) *No visual field anisotropies for the perception of coherent motion*

1995/96: Armando Bertone

Marc Hazanavicius

The effect of selective attention instruction on the motion aftereffect of a transparent plaid

Measuring the motion induction effect with a counterphase grating bar.

A motion aftereffect for the motion induction effect

Preliminary evidence for a transient coherence mechanism

Sheena Thiel (Science College) *Preliminary evidence for a transient coherence mechanism*

Patrick Lim 300 (Science College)

The effect of practice on switching with bistable stimuli

Pouya Pakneshan (Science College) *Selective attention and the transparent plaid motion aftereffect*

1996/97: Diane Soroka

Captured and directed attention in normal and dyslexic subjects

Danuta Rajska	<i>The transient nature of motion induction.</i>
<u>1997/98:</u> Caroline van de Velde parts	<i>Using the motion induction effect to assess captured and directed attention in different of the visual field.</i>
Sandy Somekh	<i>Does the motion aftereffect of plaids result from adaptation of high or low level systems?</i>
Chris Ng (Science College)	<i>Motion integration at short exposure times.</i>
Philip Kakouratos (Science College)	<i>Is early motion integration due to M pathway?</i>
Melodee Mograss	<i>Is attribute priming a function of physical or perceived brightness?</i>
Paula Lorimer (Science College)	<i>Induced brightness and motion induction.</i>
<u>1998/99:</u> Maria Cisneros (Science College)	<i>Local and global factors in looming.</i>
Brian Ouellette	<i>Global processing of an optic flow pattern: MAE.</i>
Mayra Solis (Science College)	<i>Global MAE for looming.</i>
<u>1999/00:</u> Forouzan Mobayyen	<i>Global motion processing and position accuracy in reading</i>
Sara Corkerton	<i>The effect of smooth pursuit on global motion processing</i>
Lilia Antonova (Science College)	<i>Spatial integration with looming stimuli</i>
<u>2000/01:</u> David di Lenardo (Science College)	<i>Does attention to pursued objects reduce flow field perception?</i>
Alexandra Urbanska (Science College)	<i>The temporal course of spatial integration in radial flowfields.</i>
Afroditi Panagopoulos	<i>Location cueing and segmentation in visual search</i>
<u>2001/02:</u> Olga Savina	<i>Visual search and location cueing.</i>
Marie Pham (Science College)	<i>Hysteresis in the perception of motion transparency.</i>
<u>2002/03:</u> Francesco Maltese	<i>Interaction of radial and circular flowfields</i>
Landrew MacKinnon (Science College)	<i>MAE and IOT in flowfields</i>
Sobia Virk (Science College)	<i>Coherence and lifetime determining MAE and IOT in flowfields</i>
Raphaël Micone (Science College)	<i>Relationship between motion thresholds and spatial localization</i>
<u>2003/04:</u> Kamala Pilgrim	<i>Velocity estimates of locomotion-produced flow fields</i>
Philippe Papillon-Smith (Science College)	<i>Localization of various MAEs</i>

<u>2004/05:</u> Angela Vavassis	<i>The modulating effect of environmental complexity on visual-spatial attention under conditions of divided attention</i>
Xu Fei (Science College)	<i>Discrimination of optical flow speed due to different object sizes</i>
<u>2005/06:</u> Ilenna Vuong (Science College)	<i>Measuring the cue size effect</i>
Dania Adamuszek	<i>Influence of emotional state on change blindness</i>
Laura Ivan	<i>Distribution of attentional resources within a cue</i>
Liliane Chamas (Science College)	<i>Apparent spatial frequency with exogenous attention</i>
<u>2006/07:</u> Adam Beach(Science College)	<i>Velocity discrimination thresholds in the upper and lower visual fields with moving observers</i>
Anthony Paventi	<i>The cue size effect in endogenous attention</i>
Charles Bourbeau	<i>The cue size effect in exogenous attention</i>
<u>2007/08:</u> Paraskevi Engarhos	<i>Inter-ocular transfer in motion fading.</i>
Zorina Bacchus	<i>Spatial and temporal parameters of motion fading.</i>
<u>2008/09:</u> Ravit Sadi	<i>Vertical head and eye movements in response to visual pursuit during locomotion</i>
Simona Manescu	<i>Horizontal head movements in response to visual pursuit during locomotion</i>
Abdelhac Saddiki (Science College)	<i>The effect of attention on motion in the center and the periphery</i>
<u>2009/10:</u> Tomas Matthews	<i>Attention and the Duffy/Wurtz illusion</i>
c) Research Methods students:	
<u>1994/95:</u> Suzanne Viau	<i>Adaptation to facial expressions.</i>
<u>1995/96:</u> Luigi Riscaldino	<i>Attention and 2nd-order MAE.</i>
<u>1996/97:</u> Dina Kavada	<i>Visual processes in conjunction search tasks.</i>
Stephanie Amram	<i>The effects of different display sizes on target detection in a conjunction search.</i>
<u>1998/99:</u> F. Mobayyen & F. Sesikeye	<i>The effect of dot lifetime on looming.</i>
S. Deria & S. Phillips	<i>The effect of exposure time on looming.</i>
<u>1999/00:</u> J. Chiasson & R. Zahee-Ruddin	<i>Local and global MAE for radial flowfields</i>
<u>2003/04:</u> A. Vavassis	<i>Perceptual load and the attentional spotlight</i>
<u>2004/05:</u> L. Ivan	<i>Storage of static and dynamic MAEs</i>
<u>2006/07:</u> Anthony Paventi	<i>Do cue and test properties interact in exogenous attention?</i>
Rawan Ajlani	<i>MAE and motion fading: Same or different Mechanisms?</i>
<u>2007/08:</u> Ravit Sadi	<i>Translational and pitch head movements in walking and running observers.</i>

d) Summer NSERC Fellowship students:

- 1991: Erika Franz
Francine Cohen
1992: Christine Laurent
1999: Brian Ouellette
2003: Craig Richter
Zinnia Madon (with R. de Almeida)
2004: Angela Vavassis
2005: Angela Vavassis
2007: Paraskevi Engarhos

List of Committees:

- 1989/90** Curriculum Committee (member)
- 1990/91** Curriculum Committee (member)
Space Committee (member)
Computer Resources Committee (member)
Subcommittee on Graduate Student Selection (member)
Subcommittee on the Restructuring of Research Methods (chair)
- 1991/92** Curriculum Committee (member)
Space Committee (member)
Computer Resources Committee (member)
Subcommittee on Graduate Student Selection (member)
Subcommittee on the Restructuring of Research Methods (chair)
Search Committee for the Perception/Cognition position (member)
- 1992/93** Curriculum Committee (member)
Advisory Committee (member)
Computer Resources Committee (member)
Colloquium Committee (chair)
General Research Fund Committee, Sciences (Faculty; member)
Fellow, Science College
- 1993/94** Curriculum Committee (member)
Advisory Committee (member)
Computer Resources Committee (member)
Colloquium Committee (chair)
General Research Fund Committee, NSERC (Faculty; member)
Fellow, Science College

1994/95	Ph. D. Program Director Graduate Committee (chair) Colloquium Committee (chair) DS Space Committee (member) Director's Circle (member) NSERC Fellowships, Internal Committee (Faculty; member) Subcommittee on Graduate Student Selection (chair) Fellow, Science College
1995/96	Ph. D. Program Director Graduate Committee (chair) Colloquium Committee (chair) DS Space Committee (member) Director's Circle (member) NSERC Fellowships, Internal Committee (Faculty; member) Subcommittee on Graduate Student Selection (chair) Fellow, Science College
1996/97	Ph. D. Program Director Graduate Committee (chair) Colloquium Committee (chair) DS Space Committee (member) Subcommittee on Graduate Student Selection (chair) Fellow, Science College
1997/98	Colloquium Committee (chair) DS Space Committee (member) Fellow, Science College NSERC Fellowships, Internal Committee (Faculty; member) 6-months sabbatical
1998/99	Comprehensive Exams Coordinator Colloquium Committee (chair) Personnel Committee (member) Search Committee for Perception/Cognition position (chair) DS Space Committee (member) Ad-hoc committee on frais indirects (member) Fellow, Science College
1999/00	Comprehensive Exams Coordinator Colloquium Committee (chair) Personnel Committee (chair) DS Space Committee (member)

Fellow, Science College

2000/01	Comprehensive Exams Coordinator DS Space Committee (member) Principal, Science College Search Committee for CIHR chairs (member) Advisory Committee (member) Ethics Committee (member)
2001/02	DS Space Committee (member) Principal, Science College Search Committee for CIHR chairs (member) Advisory Committee (member) Ethics Committee (member) Search Committee for cognitive science position (member)
2002/03	DS Space Committee (member) Principal, Science College Search Committee for CIHR chairs (member) Ethics Committee (member)
2003/04	Principal, Science College Ethics Committee (member) Concordia Sustainability Project Advisory Committee (member) Personnel Committee (member) CSLP member and theme leader (Basic Processes)

2005/06	Principal, Science College Concordia Sustainability Project Advisory Committee (member) University NSERC Fellowship Committee (member) Hiring Committee Co-chair CSLP member and theme leader (Basic Processes)
2006/07	Principal, Science College Concordia Sustainability Project Advisory Committee (member) University NSERC Fellowship Committee (member) CSLP member and theme leader (Basic Processes) Distinguished Professor Emeritus Committee

2007/2008	Principal, Science College University NSERC Fellowship Committee (member) CSLP member and theme leader (Basic Processes) Distinguished Professor Emeritus Committee Departmental Ethics Committee
2008/2009	Principal, Science College CSLP member and theme leader (Basic Processes) Departmental Ethics Committee

Colloquia (since June 1, 1989):

- June 22, 1989: "Extrastriate Motion". Depto. de Psicologia, Universidade de São Paulo, Ribeirão Preto, S.P., Brazil.
- July 31, 1989: "Preattentive Visual Processing". Depto. de Psicologia, Universidade Federal de Pernambuco, Recife, PE, Brazil.
- August 25, 1989: "Psychophysical Investigations of the Motion Stream". Depto. de Neurobiologia, Universidade Federal de Rio de Janeiro, Rio de Janeiro, R.J., Brazil.
- February 26, 1991: "From features to faces:Tracing visual processes from the outside". CUPA Colloquium Series, Dept. of Psychology, Concordia University.
- July 3, 1992: "Percepção de movimentos complexos". Depto. de Psicologia, Universidade Federal de Pernambuco, Recife, PE, Brazil.
- July 6, 1992: "A relação entre a percepção e a neurofisiologia". Depto. de Psicologia, Universidade Federal de Pernambuco, Recife, PE, Brazil.
- May 11, 1994: "Estratégias de processamento no sistema visual". Depto. de Psicologia, Universidade de São Paulo, Ribeirão Preto, S.P., Brazil.
- May 13, 1994: "Processamento de movimento complexo". Depto. de Psicologia, Universidade de São Paulo, Ribeirão Preto, S.P., Brazil.
- May 19, 1994: "Níveis de facilitação demonstrados pela indução de movimento". Depto. de Psicologia, Universidade de São Paulo, Ribeirão Preto, S.P., Brazil.
- April 21, 1995: "Motion induction and attentional facilitation". Dept. of Electrical Engineering, McGill University, Montréal, Qué.
- March 29, 1996: "Attentional modulation of motion processing". Dept. of Psychology, Université de Montréal, Montréal, Qué.
- December 18, 1996: "Selective attention and the bivectorial motion aftereffect". Depto. de Psicologia, Universidade de São Paulo, Ribeirão Preto, S.P., Brazil.
- March 13, 1998: "Visual psychophysics and the brain: Attending to motion and moving attention". Department of Psychology, UQAM, Montréal, Qué.
- April 24, 1998: "Living with motion aftereffects: past, present and future.". Journée Scientifique, GRENE, Université de Montréal, Montréal, Qué.

- July 10, 1998: "Attentional selection: One kind or many?" Vision Research Center, Department of Ophthalmology, McGill University, Montreal, Qué.
- August 21, 1998: "Dynamic motion aftereffects: From phi to attention and looming" Department of Psychology, University of Wales, Bangor, Wales.
- December 4, 2000: "Transparent motion: Localization and interaction", École d'optométrie, Université de Montréal, Montreal, Qué.
- September 12, 2002: "Looking back: Was it all an illusion?" Department of Psychology, Concordia University, Montreal, Qué.
- November 21, 2003: "Motion and locomotion: How robust is radial flowfield information?" Centre de neuroscience de la cognition (CNC), Université du Québec à Montréal, Québec.
- February 24, 2005: "Characteristics of the attentional spotlight". Depto. de Psicologia, Universidade de São Paulo, Ribeirão Preto, S.P., Brazil.
- January 24, 2009: "The Magic of Illusions". Open House at Concordia University, Montreal, Qué.
- January 26, 2009: "Vision on the go: What we see when we run". Sigma Xi Society Lecture, McGill University, Montreal, Qué.
- May 29, 2009: "Vision on the go: Seeing while running". Invited talk at the annual meeting of the Réseau de la vision, Montreal, Qué.

Collaborations:

- Dr. Jocelyn Faubert:** École d'optométrie, Université de Montréal, Montreal, Qué.
Attention and motion, MAE, Looming perception, Aging.
- Dr. Christian Casanova:** École d'optométrie, Université de Montréal, Montreal, Qué.
Complex motion perception in pulvinar/extrastriate system in cat. Looming.
- Dr. Cesar Galera:** Departamento de Psicologia, Universidade de São Paulo at Ribeirão Preto in Ribeirão Preto, S.P., Brazil.
Visual search. Reaction time.
- Dr. Debbie Giaschi:** Department of Ophthalmology, University of British Columbia, Vancouver, B.C.
Attentional processing in developmental dyslexia.
- Dr. Ruxandra Sireteanu:** Neurophysiology, Max-Planck-Institut für Hirnforschung, Frankfurt/M, Germany.
Attentional size illusion.
- Dr. Fariborz Haghigiat:** Center for Building Science, Concordia University, Montreal, Qué.
Development of an artificial nose.
- Dr. Maria-Lucia Simas:** Departamento de Psicologia, Universidade Federal de Pernambuco, Recife, PE, Brazil.
Early temporal visual channels. Dynamic facial expressions.

I have been Professeur Associé (Adjunct Professor) in the Psychology Dept. at Université de Montréal since July 1985 until 2003, which involved some project supervision and evaluation.

Other professional activities:

- Reviewer for journals such as Perception & Psychophysics, Spatial Vision, Vision Research, Canadian Journal of Psychology, Perception, Visual Neuroscience, JEP: HPP, Neuropsychologia, Brazilian Journal of Medical and Biological Research.
- Consulting Editor for JEP:HPP (1999 – present).
- Referee for NSERC, CIHR, NIH, FCAR and FRSQ grants.
- Referee for CPA and SQRP submissions.
- Guest host at ChromaFest '90 at Psychology Dept., Harvard University and MIT Media Lab.
- Member of the Organizing Committee for SQRP Congress in Nov. 1990.
- External Examiner (Ph.D. etc):
 - Dec. 1992: D. Giaschi (York University)
 - May 1994: Driscoll (U. of Western Australia)
 - Sept. 22, 1994: L. Symons (U. of Western Ontario)
 - Nov. , 1997: E. Tardif (U de Montreal)
 - Oct. 6, 1998: R. Demanins (McGill)
 - June 11, 1999: L. Merabet (U de Montreal)
 - Sept. 8, 2000: A. Ptito (MNI, promotion)
 - Jan. 9, 2002: I. Boutet (McGill)
 - Jan. 17, 2002: B. Ouillette, (Université de Montréal), M.Sc
 - Nov. 21, 2002: C. Habak (U de Montreal)
 - May 20, 2003: F. Poirier (Queen's University)
 - July 27, 2003: M. Arguin (U de Montreal, promotion)
 - March 12, 2004: W. Sakr (PhD, Fac. of Engineering)
 - Feb. 25, 2005: J. Rossini (PhD, USP Brazil)
 - June 9, 2006: C. Lefebvre (PhD, Université de Montréal)
 - Oct. 10, 2006: S. Desjardin (PhD, UQAM)
